

Repeated Courses Policy

American World School — Online Programme

1. Introduction

American World School (AWS) is committed to providing students with opportunities to achieve academic success and meet graduation requirements. The mission of AWS is to support all students academically, socially, and psychologically by providing a challenging and nurturing educational experience that fosters personal growth, creativity, and a sense of community — including students learning through the AWS Online Programme.

Our Repeated Courses Policy outlines the guidelines for students who need or choose to retake a course to improve their understanding and academic performance.

2. Purpose

The purpose of this policy is to:

- Provide students with the opportunity to improve their grades and understanding of course material.
- Ensure a clear and consistent approach to handling repeated courses and their impact on academic records.
- Support students in meeting graduation requirements and enhancing their university applications.

3. Allowable Circumstances for Repeating a Course

Students may be eligible to repeat a course under the following circumstances:

- **3.1 Failing Grade:** students who receive a failing grade (F or below 60%) must repeat the course to earn credit toward graduation requirements.
- **3.2 Low Passing Grade:** students who receive a grade between 60% and 69% (D) may choose to repeat the course to improve their understanding and grade, as some universities may not accept grades in this range.
- **3.3 Improving GPA:** students may repeat a course to improve their overall Grade Point Average (GPA) for college applications and academic standing.

4. Grade and Credit Management

4.1 Original Course — Failing Grade (F)

- **Grade Recording:** the original failing grade (F) will remain on the transcript with the notation “Course Repeated - Grade Excluded from GPA.”
- **Credit:** no credit is awarded for the failed attempt.
- **GPA Calculation:** the failing grade is excluded from GPA calculations once the course is successfully repeated.

4.2 Original Course — Passing Grade (D or higher)

- **Grade Recording:** both the original grade and the repeated course grade will appear on the transcript.

- Credit: credit is awarded only once. The notation “Repeat - Credit Granted Previously” will appear next to the repeated course.
- GPA Calculation: only the higher grade will be calculated in the cumulative GPA.

4.3 Repeated Course

- Grade Recording: the new grade will be posted on the transcript with the notation “Repeat of [Course Name/Code].”
- Credit: if this is the first passing attempt, credit will be awarded. If repeating a previously passed course, no additional credit is granted.
- GPA Calculation: the higher of the two grades will be calculated in the cumulative GPA.

4.4 Transcript Notation

All transcripts and grade reports will include the following designations:

- “R” next to the repeated course to indicate repetition.
- “Original Grade Excluded” for courses where a failing grade was replaced.
- Course repetition summary: a section listing all repeated courses with original and final grades.

5. Process for Repeating a Course

Students who wish to repeat a course must follow these steps:

- 5.1 Consultation: meet with the student's Success Manager and Success Coach to discuss the reasons for repeating the course and the potential impact on their academic plan.
- 5.2 Approval: obtain approval from the Director, Director of Operations, Vice Principal of Admissions, or Director of Academic Affairs to ensure that repeating the course aligns with the student's educational goals and graduation requirements.
- 5.3 Enrollment: the repeated course is scheduled by the student's Success Manager as a new Live Block on the weekly timetable and added to the student's account on the learning platform, during the designated enrollment period. This may include a repeat during the regular term or a summer session.
- 5.4 Completion: complete all coursework, Mastery Block work, and assessments for the repeated course. Live Block attendance and participation requirements are the same as for any other course, per the Student Attendance Policy.

6. Special Considerations

- 6.1 Advanced Placement (AP) Courses: if a student repeats an AP course, the policies regarding GPA weighting will apply as described in the Graduation Requirements Policy.
- 6.2 Transfer Students: students transferring to the AWS Online Programme from another school should discuss their previous coursework with their Success Manager to determine if repeating a course is necessary and how prior course attempts will be reflected on AWS transcripts.
- 6.3 Summer Courses: any repeated course taken during a summer session must be pre-approved by AWS administration.

7. Limitations

- Students are generally allowed to repeat a maximum of two courses per academic year unless otherwise approved by the administration.

- Courses may not be repeated more than once without special approval from the administration.

8. Transcript and Grade Report Designations

All official transcripts and grade reports issued by American World School will clearly indicate:

- Course repetition status using the “R” designation.
- Original and repeated grades for full transparency.
- GPA calculations showing only the higher grade from repeated courses.
- A summary section detailing all course repetitions with explanatory notes.

9. Conclusion

American World School is dedicated to supporting students in their academic journey and providing opportunities for success. By adhering to this Repeated Courses Policy, students can improve their academic standing and achieve their educational goals.
